

## #WeBelieve

We believe all people should have the right to live free from fear and violence

We believe in Israel's right not just to exist, but to flourish, and we stand against those who defame her

We believe that in the absence of a peace agreement this war will be repeated again and again

We believe that if we lack compassion we are part of the problem, not the solution

We believe that those who dehumanise the other undermine the possibility of peace

We believe that there are partners for peace on both sides and that we must reach out and strengthen their voices

We believe that Israel's best hope for long-term security lies in a stable, enduring, comprehensive peace agreement with the Palestinians

We believe peace is still possible and we must deepen our efforts to achieve it
